JOURNAL OF THEORETICAL BIOLOGY

UNIVERSITY OF HAWAII
LIBRARY

PERIODICAL
UNIVERSITY OF HAWAII
LIBRARY

Chief Editor: J. F. DANIELLI

Editorial Board:
E. A. BARNARD
M. CALVIN
B. G. CRAGG
H. EYRING
D. A. GLASER
D. MAZIA
A. ROBERTSON
C. H. WADDINGTON
L. WOLPERT
M. YČAS
J. Z. YOUNG

Volumes 1—10

January 1961 to April 1966

ACADEMIC PRESS
London and New York

QH 301
J75
Index 1-10

v.1-10
5856-8

Contents of Volume 1

Number 1, *January* 1961

WILLIAMS, R. J. P., Possible Functions of Chains of Catalysts . . 1

HALL, G. G., Permeation through a Spherical Membrane . . 18

ELSASSER, WALTER M., Quanta and the Concept of Organismic Law . 27

AMESZ, J., DUYSENS, L. N. M. AND BRANDT, D. C., Methods for Measuring and Correcting the Absorption Spectrum of Scattering Suspensions 59

SZENT-GYÖRGYI, ALBERT, The Supra- and Submolecular in Biology . 75

ANDREWARTHA, H. G. AND BROWNING, T. O., An Analysis of the Idea of "Resources" in Animal Ecology 83

LOWENSTEIN, JOHN M., Reductions and Oxidations in Mammalian Biosyntheses 98

BELL, L. G. E., Surface Extension as the Mechanism of Cellular Movement and Cell Division 104

Number 2, *April* 1961

LINDEGREN, CARL E., The Biological Function of Deoxyribonucleic Acid 107

BERGNER, P.-E. E., Tracer Dynamics: I. A Tentative Approach and Definition of Fundamental Concepts 120

WILLMER, E. N., Human Color Vision and the Perception of Blue . 141

PERAULT, A.-M., VALDEMORO, C. AND PULLMAN, B., Electronic Aspects of the Mechanism of Action of Xanthine Oxidase . . . 180

CLARINGBOLD, P. J. AND BARKER, J. S. F., The Estimation of Relative Fitness of *Drosophila* Populations 190

CAIANIELLO, E. R. Outline of a Theory of Thought-Processes and Thinking Machines 204

VANDER, ARTHUR J., WILDE, WALTER S. AND MALVIN, RICHARD L., A Theoretical Mode of Action of Aldosterone . . . 236

YČAS, MARTYNAS, Replacement of Amino Acids in Proteins . . 244

CALVIN, MELVIN, Quantum Conversion in Photosynthesis . . 258

Number 3, *July* 1961

SHAPIRO, HERBERT, On the Relation between Ionization and Biological Activity in some Sympathomimetic Amines 2

MARLER, PETER, The Logical Analysis of Animal Communication . 2

RUMMEL, W., PFLEGER, K. AND SEIFEN, E., Experimental Examination of the Hypothesis of Coupling between the Sodium and Potassium Pump in Erythrocytes 3

WENNER, ADRIAN M., Division of Labor in a Honey Bee Colony—a Markov Process? 3

POLLARD, ERNEST, Physical Aspects of Protein and DNA Synthesis . 3

PLATT, J. R., Properties of Large Molecules that go beyond the Properties of their Chemical Sub-Groups . . . . .

BERGNER, PER-ERIK E., Tracer Dynamics: II. The Limiting Properties of the Tracer System . . . . . .

LEWONTIN, R. C., Evolution and the Theory of Games . . .

ARNOLD, WILLIAM, Wave Mechanics and Muscular Contraction . 4

Letter to the Editor—

NAFTALIN L. AND STEPHENS A., The Effect of Concentration and Rate of Intravenous Injection of Thiopentane . 4

Number 4, *October* 1961

FISHER, SIR RONALD, A Model for the Generation of Self-Sterility Alleles 4

SUGITA, MOTOYOSI, Functional Analysis of Chemical Systems *in vivo* using a Logical Circuit Equivalent 4

ROSS ASHBY, W. AND RIGUET, J., The Avoidance of Over-Writing in Self-Organizing Systems 4

FUKUDA, NUBUO AND SUGITA, MOTOYOSI, Mathematical Analysis of Metabolism using an Analogue Computer: I. Isotope Kinetics of Iodine Metabolism in the Thyroid Gland . . . . .

JOSEPHSON, ROBERT K., REISS, RICHARD F. AND WORTHY, R. M., A Simulation Study of a Diffuse Conducting System based on Coelenterate Nerve Nets . . . . . .

STEINBERG, CHARLEY AND STAHL, FRANK, The Clone-Size Distribution of Mutants arising from a Steady-State Pool of Vegetative Phage

RESCIGNO, A. AND SEGRE, G., The Precursor–Product Relationship .

WARNER, DONALD T., Proposed Molecular Models: II. Conformations of Staphylomycin and other Polypeptides and a Possible Relation to the Structure of Water 514

NAFTALIN, L. AND SPENCER HARRISON, M., Ion-Exchange Mechanisms in the Membranous Labyrinth: a Suggested Basis for the Sudden Attacks in Ménière's Disease 529

GAUSE, G. F., The Biological Designing of Antimetabolites for Malignant Growth 535

PERRET, C. J. AND LEVEY, H. C., The Theory of Uncatalysed Linear Expanding Systems 542

Note—

LEWONTIN, R. C., Evolution and the Theory of Games . . 551

Contents of Volume 2

Number 1, *January* 1962

GIDDINGS, J. C. AND BOYACK, J. R., Effect of Stabilizing Media on Zone Mobility and Spreading in Electrophoresis . . .

LIMA-DE-FARIA, A., Selection at the Molecular Level . . .

BINGLEY, M. S. AND THOMPSON, C. M., Bioelectric Potentials in Relation to Movement in Amoebae . . . . . .

SHEPPARD, C. W., Stochastic Models for Tracer Experiments in the Circulation: Parallel Random Walks . . . . . .

LWOFF, A. AND LWOFF, M., Événements Cycliques et Molécules Métastables . . . . . .

BROWNING, T. O., The Environments of Animals and Plants . .

LEWIS, D., The Generation of Self-Incompatibility Alleles . .

Letter to the Editor—
BLUMENTHAL, L. K., A Contribution to the Coding Problem .

Number 2, *March* 1962

KOSHLAND, D. E. JR., The Comparison of Non-Enzymic and Enzymic Reaction Velocities . . . . . .

SIMHA, R. AND ZIMMERMAN, J. M., Sequence Distribution and Neighbor Effects of Various Orders in Polynucleotides . . . .

TOLLIN, G., The Primary Process of Photosynthesis: An Interpretation of the Emerson Effect and of the Light-Induced Spectral Changes at 7,000 Å . . . . . .

O'SULLIVAN, D. G., Quantitative Potentialities in Enzyme Cytochemistry. Modified Michaelis-Menten Rate Law Applicable when a Substrate Diffuses Slowly into an Enzyme Site . .

JAHN, T. L., A Theory of Electronic Conduction through Membranes, and of Active Transport of Ions, Based on Redox Transmembrane Potentials . . . . . .

ECK, R. V., The Protein Cryptogram: I. Non-Random Occurrence of Amino Acid "Alleles" . . . . . .

DOUNCE, A. L., A New Hypothesis for Nucleic Acid Replication . 152
FRENSTER, J. H., The Magnitude of Disease as Measured by Tolerance Tests 159
WILKINS, D. J., OTTEWILL, R. H. AND BANGHAM, A. D., On the Flocculation of Sheep Leucocytes: I. Electrophoretic Studies . 165
WILKINS, D. J., OTTEWILL, R. H. AND BANGHAM, A. D., On the Flocculation of Sheep Leucocytes: II. Stability Studies . . . 176

Number 3, *May* 1962

NELSON, E., Kinetics of the Excretion of Sulfonamides during Therapeutic Dosage Regimens 193
PERL, W., Heat and Matter Distribution in Body Tissues and the Determination of Tissue Blood Flow by Local Clearance Methods 201
WEISS, L., Cell Movement and Cell Surfaces: A Working Hypothesis 236
PRATT, J. M., The Fixation of Nitrogen 251
PULLMAN, A., On the Possibilities of Correlating the Redox Potential of Reversible Systems to the Molecular Orbitals Involved in the Electron Transfer 259
PERAULT, A.-M., Some Electronic Aspects of the Mechanism of Action of Clostridial Xanthine Dehydrogenase 263
STRAUSS, B. S., Some Aspects of Mutation 266
BERGNER, P.-E. E., On the Stochastic Interpretation of Cell Survival Curves 279
RENDEL, J. M., The Relationship Between Gene and Phenotype . 296
FISHER, R. A., Enumeration and Classification in Polysomic Inheritance 309
ENGELBERG, J., Analysis of a Radiation-Induced Mutation in *E. coli* . 312
HERSH, R. T., Mutants of TMV and the Commaless Code . . 326
FRASER, A. S., Simulation of Genetic Systems 329

Contents of Volume 3

Number 1, *July* 1962

BAILEY, V. A., NICHOLSON, A. J. AND WILLIAMS, E. J., Interaction between Host and Parasites when Some Host Individuals are More Difficult to Find than Others . . . . . .
